

## TELEPHONE REPRESENTATIVE INVESTIGATES TOLLS

Before a meeting of the Monterey Chamber of Commerce, attended also by E. A. H. Watson, president of the Carmel Business Men's association and Herbert Heron, and Pacific Grove representatives, G. P. Wallick of San Francisco, who is the divisional commercial manager for the Pacific State Telephone and Telegraph company, told of the investigations that had been made in connection with the recent agitation to have the inter-city phone toll removed.

Mr. Wallick reported that figures showed the minority would benefit at the expense of the majority.

He said of the Carmel business users, 82 per cent would pay more; 17 per cent less and two per cent the same.

Sixty-five per cent of Carmel home subscribers would pay more; 31 per cent less while only 2.4 per cent would pay the same.

In Monterey and Pacific Grove an even greater percentage of business subscribers would pay more, with an increase in the rates of 86.2 per cent, a decrease of 11.4 and the same rates for 2.4 per cent.

The resident users in Monterey and Pacific Grove would have the rates of 61.8 per cent increased; 17.4 per cent decreased and 20.8 per cent remain the same.

Sixty-eight and three-tenths per cent of the whole area would have their rates increased; 19.6 per cent would pay less and 12.1 per cent would pay the same.

The report showed that discontinuance of the toll would benefit only about one-fifth of the subscribers and Mr. Wallick gave the opinion that the toll would be maintained. He said that the toll would be maintained because the Carmel telephone exchange is not connected with the Monterey exchange and that upon its establishment the number of subscribers here increased immediately from 400 to 710, while there are at present 1572 telephones in this city.

Sixteen and four-tenths of the Carmel subscribers did not call Monterey at all last year, and 66 per cent of those who did, called ten times or less.

Business groups from the three cities will discuss the report, a copy of which has been given them and they will then decide whether to take the matter up further with the railroad commission or let it drop.

## BUSINESS MEN ASKED TO JOIN JUNIOR C. C.

Carmel Sun has been asked to announce to Carmel business men the meeting at the San Carlos hotel next Tuesday evening at 8 o'clock for the purpose of organizing a Peninsula Junior Chamber of Commerce.

L. F. Arnons, originator of the plan, urges that all who are interested attend. Mr. Arnons, himself, is an up and coming young druggist on Del Monte avenue, and believes in advancement.

## CALISTA ROGERS FIRST PROGRAM FRIDAY

The first of the three Friday evenings of Song, which Calista Rogers is giving at the Denny-Watrous Gallery, beginning this Friday evening, July 13, and occurring every other week until August 10, offers a fascinating program.

Two songs of the troubadours of the twelfth and thirteenth centuries open the program. The troubadours, as everyone knows, travelled from castle to castle with a companion who played one or more instruments such as a harp, lute, flute or viol. Thibaut de Bornesull of the twelfth century has been chosen by Miss Rogers as typical of this period, and his "The Dawn," a heroic love song, is of great beauty. Thibaut de Champagne of the thirteenth century was one of the most famous of all the troubadours. Like many others he was soldier as well as musician. He joined the sixth Crusade, and his song lamenting the leaving of his sweetheart and his country, which is the second song on the program, is one of the finest of the early art songs.

Songs of the Spanish and English lute players follow. About five-hundred songs with lute accompaniment were published at the end of the sixteenth century in England, and it is from this extraordinary collection that Miss Rogers has chosen her English songs.

The seventeenth and eighteenth centuries are illustrated first by songs from Italy of the great Pergolesi, Scarlatti, Caldara, and Legrenzi.

The last group of this first program comes also from the seventeenth and eighteenth centuries. It will be illustrated by Handel, Mozart, and that of all, Bach, in a beautiful setting of pure song as music.

Miss Rogers' second program on July 27 will present rarely heard songs of Schubert, Wolf and Brahms. Her final program on August 10 will be chosen from the moderns—from Debussy to Weisshaus. Exceptionally low rates are offered to season ticket holders for these events.

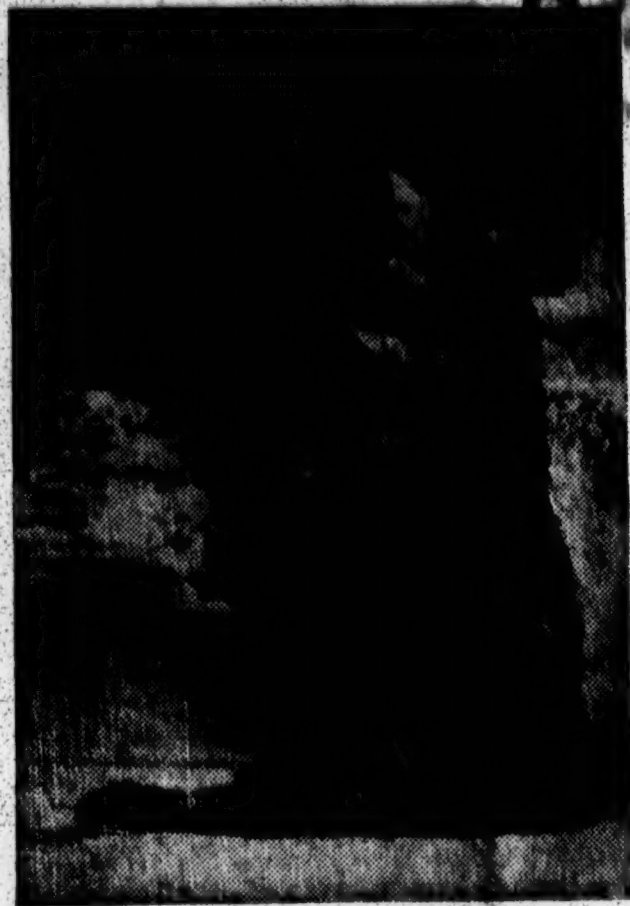

Ralph Linsley will be at the piano—no small part of the music of the evening.

Preliminary hearing is being held in Monterey today for John Dole, accused of taking an automobile from the beach, and with giving bad checks to several merchants. He was arrested Wednesday by Chief of Police Gus Englund.

Madame Doreen Boles and her brother stopped in Carmel two days this week. They were returning to Hollywood after spending some time in Tacoma and stopped here to attend to business matters.

Roy Meadows, Jr., came down from Palo Alto to spend the holidays with his parents in Carmel Valley.

H. Dunnville of Berkeley has taken the L. N. Jones house on Camino Real for a week.

## Feeding Time for "Honeybunch" at Caretaker's in Point Lobos Park

Such a teensy wensy little baby it was and through our ignorance we called it a 'possum but it turned out to be a baby coon not more than ten days old we found weak and hungry in Point Lobos park last Saturday morning.

We poked it with a stick to see just what it was and after much crying it got up and wanted to climb up on our feet. We tried to head it the other way thinking its mother might come at its cry but since no mother coon showed up we decided to take it up to the park supervisor's house for a good breakfast. You should have seen that youngster go after that milk. She made every effort to drink from a saucer but after a

miserable failure we tried putting bread in the milk and feeding her from a spoon which was so successful that she ate until she almost had blind staggers. And now you should see her at feeding time, and how she does go after that bottle. Her name is Honeybunch, and she already responds promptly to the call of "Nerta." (Especially if the caller is holding the bottle.)

Mr. Wilcox got permission from the supervisor of state parks to keep her until she is able to make her husband and after that, it's pretty safe to say he'll get a permit to keep her permanently for the whole household revolves around that baby.

## SECOND NUMBER OF SUMMER SERIES FINE

In the beautiful setting of the Sunset stage, banked on each side by a huge vase of lovely flowers, the second number of the Carmel Music Society summer series was held Tuesday night. The auditorium was well filled with a thoroughly appreciative audience who sat scarcely breathing less they miss even one tone of the excellently rendered program.

The program opened with Loeliet, quartet: piano, Ralph Linsley; violin, Theodore Norman; viola, Abraham Weiss, and cello, Michel Penha.

Linsley, Weiss and Penha are old favorites with the Carmel audiences and Tuesday night, young Theodore Norman took his place along with them in the hearts of the people.

The second number was a Beethoven sonata, trio for Penha, Norman and Weiss; then again came the quartet with Saint Saens.

Cries of "Bravo" and much cheering expressed the unusual

enthusiasm of the listeners. An even larger crowd is expected for the next performance of the Penha Piano Quartet to be given in two weeks from Tuesday night, July 24, for no one who heard this performance will want to miss the next and those who failed to hear Tuesday night's program will not miss out on the coming musical feast.

On July 24, you will hear a quartet by Schumann; quartet by Brahms, and Divertimento, a trio from Haydn.

## LITERATURE ADVISES AGAINST STATE TAX

Literature was scattered about Carmel this week recommending that unless the state troops should be withdrawn from the docks in San Francisco, the people should rise in holy wrath and refuse to pay the state tax.

Carmel has an ordinance against distribution of bills.

C. C. Hampton and family of Marysville are in the Gibbons cottage on Carmelo for the summer.

## CITY COUNCIL HOLDS EXTRA LONG SESSION

Although there were a large number of people present when the city council met last Thursday night, there were not so many when they adjourned long after midnight.

Many people attended to hear what was to be done about the library but beyond the reading of the report which had been published in both Carmel papers no action was taken, the fact of so many cards in proportion to the city being still unexplained. Mayor Thoburn announced that the council will take up the budgeting at a later date.

After much discussion as to the new business license ordinance, Mayor Catlin moved the second reading of the amendment to change the amount of the deposit from \$100 to \$25 for those who have not been in business for one year preceding July 1, 1934. There was no second to the motion and the ordinance stands as it was passed.

A petition was read, signed by 80 merchants and property owners, asking that the original ordinance be not amended.

Street Commissioner Burge reported that the city has been spending \$2,000 annually to keep the main sewer lines clear. Mayor Thoburn appointed Councilmen Catlin and Burge to act with himself and the sanitary board to have the board take over that expense, which they will be able to do under their new organization.

The question of the Monterey Peninsula airport was discussed again and although the former council was favorable to the proposition the new council has as yet taken no action. The proposed airport, it will be remembered, will cost Monterey, Pacific Grove and Carmel approximately \$16,000 per month each and will be located near the old Polo field on Del Monte land.

Laura W. Maxwell asked that the city taxes be made payable semi-annually but Attorney Campbell said the change could not be made this year. It will probably be reconsidered in January.

A resolution of thanks was read for Al Peckham and Carl Harris who placed their driveway so as to save a big pine tree.

An ordinance was proposed and given first reading providing the city with authority to kill diseased trees wherever they might be found.

A tree was ordered removed from in front of the Sundial Court.

Tom Thienes asked and was granted permission to fly banners across the streets for the Serra Pagent to be given next month.

## CITIZENS COOPERATE FOR CLEANER STREETS

Street Commissioner Burge reports that he is meeting with excellent co-operation from property owners in his efforts to keep the streets of Carmel free from rubbish.

In response to numerous requests he is sweeping the streets twice each week and asks further co-operation from the public in this line.

Residents and visitors alike are asked not to throw papers nor rubbish of any kind in the streets so that this twice a week service may be continued.

Tuesday's Examiner carried an account of the marriage of Jeanne Havens-Montegale to John Maschio, well known Hollywood man, at Agua Caliente. The bride is a daughter of Mrs. Havens-Montegale of Pebble Beach and a sister of Patricia who made her stage debut this season in "She Loves Me Not."

There will be no meetings of the Monterey Peninsula Boropit-mist club during July but they will be resumed August 6th with a lunch at Patsy's in Monterey.

## BARBECUE WAS WELL ATTENDED SUNDAY

They had a big time Sunday at the barbecue staged as a benefit for the Serra Festival to be given in Carmel August 24 to 28 and the crowd laid aside all formality and enjoyed the day to the utmost.

The committee is deserving of a great deal of praise since they worked hard for the success of the affair. They were: Tom Thienes, Arthur Shand, C. W. Whitney and D. L. Staniford.

The fight program was under supervision of Jack Dalton and the following resulted from the boxing matches:

Bob Dalton, Carmel amateur featherweight champion, won over Mickey Walker in a three round decision.

Frank Dalton and Larry Wright fought to a three-round draw, in their fourth meeting. Wright has won two of the bouts and Dalton one.

Harry McDonald won over Jack Everett and Bud Garcia was victor over Jimmy Phillips.

## DEPARTMENT PREPARING FOR INCREASED TRAVEL

In preparation for increased travel on Mission and streets parallel since notice of the removal of the post office to Mission and Ocean, Councilman Burge, street commissioner, has ordered the oiling of Lincoln to Ocean and the re-oiling of Dolores.

Mr. Burge also stated that oil from the state was expected soon for oiling Santa Lucia.

## EAGLES PLAN BARBECUE WITH FUN FOR ALL

With sixty-five prizes to be given away in all kinds of contests, with dances provided for those who wish and some ball games, the Monterey Eagles are planning for a big time at their barbecue advertised for August 19 at the V. F. W. hut on the Salinas highway.

The committee set the price of attendance so that no one who wished to go would be prevented adults paying only 50 cents and children up to 18 years, 25c.

The Eagles always do things up right and are all looking forward to a good time.

## LECTURE ON STRIKES

Following a recent lecture which was well attended, the John Reed Club is planning another lecture on the strike situation in San Francisco at the Green Room of the Community Playhouse Sunday evening, July 15. Admission fee is 25 cents.

The Misses Katherine and Lenore Conover of Detroit are in Carmel, for the coming six weeks, having taken the Adams cottage on Camino Real. This is their second visit to this city, their first being last year.

## GREEN ROOM SUNDAY

The Misses Katherine and Lenore Conover of Detroit are in Carmel, for the coming six weeks, having taken the Adams cottage on Camino Real. This is their second visit to this city, their first being last year.

# Counsellor-At-Law

"It cuts our family food bill because now we can use more farm products."

"It gives me about three times more storage space for my money—how's that for a buy?"

"It saves money, time and work in preparing meals—and they're better meals, too."

"It helps me sell more fancy produce and at better prices—I'm sure it will."

## Built in EARNING POWER

HERE'S GOOD NEWS if you thought you couldn't afford an electric refrigerator. Several leading manufacturers have built a brand new FARM refrigerator. It has all the important features of the University of California design, plus many new improvements. We promise that it surpasses anything you have ever seen before.

The Farm "25"—smallest of the new models, is pictured above. Here is an ideal size for the average farm. Ruggedly constructed for a lifetime of heavy-duty service, it is nevertheless extremely inexpensive. And it may be operated for as little as 5c a day.

The Farm "25," however, is only one of the new models. Others are available up to 125 cubic feet capacity. Or if you are handy with tools, you can even build one yourself—we will supply the plans. The important thing is to get an electric refrigerator on the job at once. California winters are no protection against food-spoilage and the losses in summer are tremendous.

### CHRISTIAN SCIENCE LECTURE DRAWS BIG CROWD

Mr. Peter V. Ross, C. S. B., of San Francisco, a member of the Board of Lectureship of The Mother Church, The First Church of Christ Scientist, Boston, Mass., delivered a lecture entitled "Christian Science: Its Assurance to a Troubled World" under the auspices of First Church of Christ Scientist, Carmel, on Sunday afternoon, July 8, at 3 o'clock, at Sunset School Auditorium, San Carlos Street at Ninth avenue.

The lecturer, after being introduced by Mrs. Anne B. Field, a member of the Carmel church, said in part:

In recent years the English speaking race, indeed western civilization, has been stirred to its depths by Mary Baker Eddy in her discovery and presentation of Christian Science.

In one page in her writings (Science and Health, page 405) Mrs. Eddy defines God as "Infinite Mind, Spirit, Soul, Principle, Life, Truth, Love." And in another (Retrospection and Inspiration, page 59) she writes: "Life is a term used to indicate Deity; and every other name for the Supreme Being, if properly employed, has the signification of Life."

From this point of vantage it is easy to see how God can be everywhere and All-in-all, for obviously Life, Mind, Principle are everywhere and all-pervading. No place or purpose, then, remains for man but to abide in Life and reflect Life. Paul speaking on this issue with his usual intensity, declares that in God "we live, and move, and have our being;" and that God is "above all, and

through, all and in you all." It is perfectly accurate, therefore, to define man as the expression or manifestation of Life—Life without beginning or danger or disease or end.

The recognition of this true status of God and man is the basis of Christian Science practice. Treatment or prayer in Science, in the case of sickness consists largely in realizing as clearly as one may, the unity of man with Life harmonious and irrepressible, and the consequent impossibility, save in belief or appearance, of inaction, inflammation or infirmity of any kind.

Material consciousness may lapse at times, as when an anaesthetic is administered or accident or sickness overtakes the individual. It may weaken or fade with advancing years and eventually come to an end. If one's observation extends no further than these passing phenomena, one may conclude that man is normal and that individual existence ends with the grave.

And yet, were the entire structure of material consciousness dissolved, there would remain the sublime structure of spiritual consciousness, which, like Mind, is from everlasting to everlasting. Spiritual consciousness preceded birth as certainly as it persists after death. Repeatedly does Jesus refer to pre-existence as well as to future existence. "Father," he prayed, "glorify thou me with thine own self with the glory which I had with thee before the world was." Also, "I came forth from the Father, and am come into the world; again, I leave the world, and go to the Father."

### CHRISTIAN SCIENCE CHURCHES

"God" will be the subject of the Lesson-Sermon Sunday, July 15, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass. The Golden Text will be: "Blessing, and glory, and wisdom, and thanksgiving, and honour, and power, and might, be unto our God for ever and ever" (Rev. 7:12). Other Bible citations will include: "Jesus answered them, and said, My doctrine is not mine, but his that sent me. If any man will do his will, he shall know of the doctrine, whether it be of God, or whether I speak of myself. He that speak-

eth of himself seeketh his own glory; but he that seeketh his glory that sent him, the same is true, and no unrighteousness is in him" (John 7:16-18).

The Lesson-Sermon also will include the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Will... The might and wisdom of God... Will, as a quality of so-called mortal mind, is a wrong-doer; hence it should not be confounded with the term as applied to Mind, or to one of God's qualities" (p. 597).

### EDUCATIONAL CONFERENCE RECOMMENDS PROGRESS

Eminent educational leaders gathered at Stanford University the past week to formulate educational policies and to recommend curriculum revision. Mr. Paul Hanna, Teachers College, Columbia University, in a brilliant address proposed that the content of the elementary curriculum deal with the realities of our contemporary world. These realities to include the major functions of social living, the historic roots of our present civilization, and the new and fundamentally different characteristics of this age which make possible a greater civilization. He also pointed out that the activities of the school should include not only the traditional types of activity study, review, and test, but also those activities which are equally productive to learning, namely, experimentation, exploration, research, building and construction, creation, planning, appreciation, discussion, and culmination. This would also involve an increasing load of pupil participation in socially useful work, not only because complete learning results when the learner has actually put his understanding, attitudes, and skills to the test of usage, but equally important is the positive improvement of the quality of living in that community which allows pupils to share the responsibility of cooperative living.

The administrators and teachers who attended the conference were deeply impressed and appeared ready to accept the main elements of the educational philosophy set forth. Contributed.

## FRIENDS HELP SILVA

### CELEBRATE ANNIVERSARY

It was a gala day Sunday, July 1, when about three hundred friends of William P. Silva, artist, gathered at his home on San Antonio to celebrate with him the twentieth anniversary of the opening of the Carmelita Gallery.

When Mr. Silva, as well as a great many of his guests, first came to Carmel, they found a much different place from that which one sees today, and one of these scenes, "The Old Mission Orchard," Mr. Silva had reproduced in colors and gave them to his guests as souvenirs.

Mrs. Ruth H. M. Lewis, hostess at the gallery, served delicious refreshments and the visitors enjoyed the pictures many of which were painted about the time the gallery opened.

### STARTED ON JOURNEY

#### BUT CAR OVERTURNED

Mrs. R. G. Brooks made a trip to Seattle—almost. When she and her daughters, Mrs. Willis Walker and Mrs. Clinton Walker, and a chauffeur were a day out travelling on a narrow road bounded on one side by a mountain and on the other by a river, the chauffeur ran their car into the mountain side, overturning the car. The occupants fortunately were unhurt.

The car, however, was so badly

ly damaged that it was taken to a garage for repair and the party returned home as soon as the repair work was done, and instead of spending her vacation in Seattle, Mrs. Brooks spent a month in San Francisco.

### LOVELY QUILTS ARE

#### SHOWN AT BENEFIT

Showing sixteen quilts of marvelous design, Mrs. Adam Darling gave a benefit tea for St. Anne's Guild at her lovely home on Carmelo and Ninth Tuesday afternoon of last week.

Some of the quilts were more than 100 years old and all were works of art.

The following poured tea for the many guests who called during the afternoon: Mrs. Darling's house guest, Miss Eva Wilkinson of New York; Mrs. C. I. Burt of San Francisco; Mrs. Frank A. Huffer and Mrs. F. W. Ten Winkel.

### WEDDING DATE IS

#### SET FOR SIXTEENTH

The wedding of Mr. Fritz Wurmann and Miss Marjorie Ann Legge will take place at the home of the parents of the bride-to-be, Professor and Mrs. Robert Legge, in Berkeley, July 16, according to announcements made to friends of the couple.

Both Mr. Wurmann and Miss Legge are well known here in music circles. Mr. Wurmann being an active member of the Carmel Music society and Miss Legge an accomplished pianist, who has been heard in recital here.

Mr. Wurmann is proprietor of the Peninsula Typewriter Exchange located in Monterey, but resides in Carmel.

After their wedding they will continue to reside here.

CHARLES S. WHEELER, JR.

CHAIRMAN FOR QUINN

The Northern California campaign to win for John R. Quinn the progressive republican gubernatorial nomination was expedited today with the appointment of Charles S. Wheeler, Jr., as organization chairman for all northern counties.

"John R. Quinn will win at the primaries because the people trust him and know that he is the only candidate qualified by personal experience with the needs of agriculture, industry and government, to pilot this state to recovery."

"The people of this state are disgusted and are demanding a change. The silk hat of politics is threadbare. They demand as the head of their state government a red-blooded, two-fisted American, who knows the people and understands their problems, and who will work in his shirt sleeves for them."

### CAMP TO BE PLACED IN CARMEL VALLEY

With the agreement of Monterey county to furnish \$720 worth of lumber for construction of a permanent camp, plans for a SERA labor camp on the Frank Hutton ranch in Carmel Valley are going ahead.

The camp will provide work for between one and two hundred men who will do flood control work along the river and prevention work in the San Clemente water shed district.

Miss Marian Adams is glad to be back home even though she had a very pleasant vacation spent in Redwood, Minn., where she drove with her parents from Los Angeles. In her six weeks' trip Miss Adams said she encountered all kinds of weather from extremely hot to extremely cold.

Occupying Pine Bough studio on Monte Verde, is Margaretha van Loben Sels of Piedmont, who has come to spend the summer here. With her are Miss Ellen Clark and Miss Lucy Vonk, also musicians.

Mrs. Pirene is in Carmel again after a few months spent in the south. She started this week a daily class in French for children and next Thursday at 8:30 p. m. will hold a reading of French moderns for advanced students. Mrs. Pirene is now living on Lincoln street between 5th and 6th, West side of the street.

## "COUNSELLOR-AT-LAW"

### OPENS FRIDAY NIGHT

The Theatre of the Golden Bough will open its summer season this Friday night with Elmer Rice's recent hit, "Councillor-at-Law" under the direction of Edward Kuster. The choice of this play is admirable because of its ranking among the plays of the last two years, because it is at once gripping and comic, and because it affords ample opportunity for real characterization on the part of thirty talented dramatists.

The play, which is set entirely in the offices of a prominent New York legal firm, is constructed around certain episodes in the life of George Simon, formerly a newsboy from across the track, who has made of himself New York's leading lawyer. It is the tragedy in Simon's life which gives serious meaning to the play. Numerous office aids and clients, each one an extremely humorous and life-like portrait, lift the play to repeated heights

Firestone  
CENTURY  
PROGRESS  
TIRE**

**Ten Million People HELPED  
TO BUILD THE TIRE SENSATION**

**Beyond Comparison in  
Quality, Construction,  
Appearance and Price With  
Any First Quality Tire Made**

**THE way to create a TIRE SENSATION  
is to give the people what they want, and  
Firestone has done this with the new Firestone  
Century Progress Tire.**

As millions of people visited the Firestone Factory at the World's Fair last year, we asked this question—"What do you value most in a tire?" They answered—"Give us Blowout Protection, Non-Skid Safety, and Long Wear, at a moderate price." This was a big order, but Firestone has a habit of giving car owners what they want when they want it.

We knew there was only one way to build Quality and Value into a tire at a moderate price, and that was by volume production. We built the greatest tire ever made to sell at these low prices. Car owners are profiting because we found out what they wanted and found the way to give it to them.

The new Firestone Century Progress Tire IS EQUAL OR SUPERIOR to any first quality tire built, regardless of name, brand, by whom manufactured, or at what price offered for sale.

**Check These Amazing Values**

Come in and equip your car with this marvel of tire construction, at the lowest price we have ever been able to make on a tire of this high quality and construction, carrying a Triple Guarantee.

### "COUNSELLOR-AT-LAW" TO OPEN FRIDAY NIGHT

On the nights of Friday and Saturday this week Elmer Rice's brilliant comedy-drama, "Counsellor-at-Law" will be enacted by Carmel's Golden Bough Players, winners of the recent tournament in San Francisco of the Northern California Drama association. Edward Kuster, founder of this group will direct, and William Gaskin, who designed "Amaco" last summer will again be in charge of the settings. Dewey Clough, as stage

manager, will be responsible for the rapid changes of scene required. A cast of thirty, the pick of the Peninsula and summer colony talent will enact this fine play, regarded as one of the best examples of modern realism.

Edward Kuster has, as usual, herded consistently in his direction to the principle of bringing out the ensemble of the play rather than building the production around a starring role. The result is a swift and colorful portrayal of the dozens of characteristic types that frequent the offices of busy metropolitan lawyers. The tempo of the reception room scenes is so fast that the effect is almost kaleidoscopic. Comedy, pathos and tense drama alternate to maintain the interest of the audience throughout the nine scenes of the play.

The play will be repeated next week-end, the advance sale being carried on daily opposite the post office.

Further detail may be found on page three.

Gen Shea and family of San Francisco will occupy the Guthrie house during August and September.

Allan Masters, a graduate of Stanford, has taken the Wilson main cottage for the last two weeks of August and will attend the Serra Festival here.

### ORIGIN OF NEW TIRE IS TOLD BY GRIMSHAW

The Firestone Century Progress Tire was developed from information and data collected at the Firestone factory and Exhibition at the World's Fair in Chicago, A. C. Grimshaw, local Firestone dealer, said today.

The Firestone Company was chosen in 1933 and again in 1934 to represent the entire rubber industry in the Science building and also to show visitors how tires are made.

Over a half million dollars was spent to build the outstanding commercial exhibit on the Fair grounds and ten million car owners learned every detail in the manufacture of a tire from raw rubber to finished product.

As these people from all parts of the country passed through the Firestone building, they were asked what they valued most in a tire.

When the Century of Progress drew to a close in 1933, the answers were carefully checked and compiled—and the composite answer was: "Give us a tire with Blowout Protection, Non-Skid Safety, and Long Wear at moderate price."

Immediately, Firestone engineers set to work to develop such a tire and when it was ready to announce, the name chosen was the Firestone Century Progress Tire.

"This new tire is in every way a first quality—first line tire equal or superior to any standard brands—yet it is sold at a price within the reach of every car owner," Mr. Grimshaw declared.

Mr. Grimshaw has just received a complete stock of the Firestone Century Progress tires and while he sold out after his first announcement through an ad in Carmel Sun, he can again supply the needs of every car owner.

### EMMA KRAFT AND FREE DEAN TO EXHIBIT HERE

Opening this Saturday afternoon of this week, the Denny-Watrous Gallery is offering an exhibit of water-colors and oils by Emma Kraft and Free Dean. These two young women have owned property in Carmel for years, coming here about once a year, but not often enough for the Peninsula to know them.

They have exhibited in the shows of the Women Painters of the West and in the California Water Color association, with the Independents in New York, at the Ebell and Friday Morning Club in Los Angeles, at the Hotel Biltmore, Hollywood, etc.

Emma Kraft studied with Robert Henri, George Fuks, and George Bridgman. She studied design with Frank A. Parsons, winning a scholarship in design at the New York School of Art.

Free Dean also studied with Robert Henri, and with Louis Moro. She studied design with Mary Moulton Cheney.

The opening of the exhibit will be held from two to five Saturday afternoon. Miss Kraft and Miss Dean will be present.

Miss Clara N. Kellogg has returned home from a most enjoyable month's visit spent in the East.

Mrs. Susie Pipes, who was first violin for the Neah-Kah-Nie quartet last year, was in Carmel for two days last week. While here she enjoyed a rehearsal of the Penha Piano quartet.

Mr. and Mrs. Samuel Bruckner of Fresno spent the week-end in Carmel at La Ribera hotel and visited with Miss Betty Jean Downing of the Carmel Style Shop.

Mrs. Morrison, who is connected with the Cinderella shop, has been suffering from an attack of pneumonia but is improving.

A beautiful son was born to Mr. and Mrs. Frederick Layton at Bayview hospital last Saturday and has been given the name of Frederick Anthony, Jr. Mrs. Layton is the oldest daughter of Mr. and Mrs. George Wishart of Dolores Bakery.

Mrs. John Williams Murphy with her new baby is expected to arrive soon from Annapolis to visit with relatives here until her husband, who is in the navy, comes to the Pacific coast. Mrs. Murphy is better known here as Louise Prince.

### FOREST THEATRE PLANS TO REDEEM NAME

By E. F. B.  
"Going Some," produced by the Forest Theatre and the Carmel Community Players, July 4, 5, 6 and 7, proved to be probably the worst play that has ever been done in Carmel.

Despite the excellent acting of the players, the vehicle was such that instead of being moved to laughter the audience was bored to tears. "Going Some" may have been funny when it was written in 1910, but in 1934, it was neither old enough nor recent enough to prove anything but sad. It was too bad that the twenty-fifth year of the organization should open with such a play.

Some excellent work was done however, by Rosamond Marble, Dr. Matzke, Milton Latham and Abbie Lou Bosworth, who had the only parts from which anything could be made.

The cowboys and cowgirls did some good singing and Tex Ral-bourn as the Palo Corona warbler, made quite a hit, as did Geo. Hallock and N. C. Winters with their guitars.

The Forest Theatre group hope to redeem themselves with their next performance; "Montezuma" to be produced in August. "Montezuma," written by Herbert Herron, is a story of the conquest of Mexico and is said to be very dramatic, full of fire, color and beauty, comprising six Spanish and 14 Aztec characters, with Aztec priests and warriors and Spanish soldiers.

This play with its pageantry, its gorgeous costumes and fine lighting will be an excellent production to precede the great pageant to be conducted during the Serra Festival the same month since it was through the conquest of Mexico that Father Serra came on to California and brought civilization here.

Too many fine plays have been given by the local people for this production to be "held against" them and all will be looking forward eagerly to "Montezuma."

Mrs. Joseph Tyler of Berkeley has rented Pine Needles for the coming month.

Camilla Daniels has taken the Jennie Wren cottage on Lincoln for the coming two months.

Mayor and Mrs. James H. Thoburn have moved to the Wilson cottage in Robles del Rio for the summer.

Mrs. Ella Morrison of Denver and her son, Dr. Powell, and family of Colorado Springs are in Carmel for the summer.

The house being built by A. C. Lafrenz and Hallie Sampson on Camino Real is progressing nicely.

Mrs. Lewis Crane has returned home from a most enjoyable ten day visit with her mother in Pasadena.

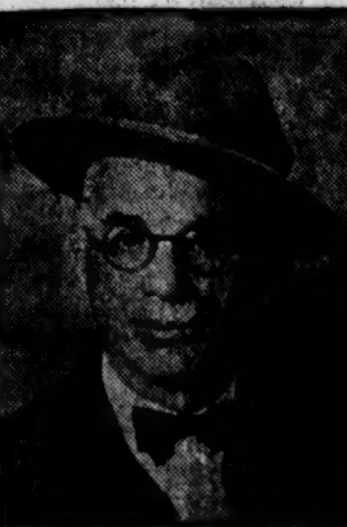

Mrs. George Draper Warwick and mother of Willow Glen have been occupying their own cottage on Carmel Point for the past two weeks.

### SERA TO TAKE OVER OLD RELIEF LISTS

In speaking of relief work for Monterey county under SERA, Frederick Beckdolt, director, said the new relief organization will take over old relief rolls and that applicants for aid must be registered after which thorough investigations will be made as to their incomes and financial circumstances.

Mr. Beckdolt stated that although it has not been definitely established what allowances will be made, it is thought that a family of four will probably receive between \$50 and \$60 a month, this amount to be worked out on some SERA project.

"It is our desire that all 'white collar' workers who wish employment register at the very earliest date," said Miss Walton, "since we wish to find out just what kind of work is needed so that we may fit the project to the registrant rather than the registrants to the project. We feel that this is the best way of handling the job."

The price per hour for labor under SERA has been set at 45 cents and an effort will be made to give each head of a family at least 24 hours' work each week.

Miss Priscilla Morse of Escalon is in Wilson No. 1, enjoying Carmel's delightful summer.

Dr. Hans Hartman of Modesto has taken the Terry cottage on Casanova for his vacation.

Miss Mildred Clowry and Miss Margaret Chappell of eastern Oregon will spend the summer in Carmel.

Donald Clampitt has returned to his home in Carmel at San Antonio and Ninth after a six months' absence.

C. L. Wilder is building a home in Robles del Rio which he expects to have completed about September 1 and which he and his family plan to occupy the year around.

Mrs. Lena Brake of San Jose returned home Wednesday after spending two months here at Tenth and Mission. Mrs. Brake has many friends in Carmel, being a frequent visitor here.

### POST OFFICE TO BE MOVED TO OCEAN

It's now old news in Carmel that the post office will be moved to Ocean Avenue and Mission within the next three months, the report having come last Friday morning but the question of whether the move will hurt business on Dolores is still discussed with interest.

The federal government in looking about for ways to save money, will buy a complete set of fixtures to equip the Murphy building for the coming two years, the order, according to W. B. Mouser, Inspector from the department in San Francisco, who was in Carmel Tuesday, having already been placed at the factory.

The new boxes will all be protected by combination locks which will please the postmistress Mrs. Irene Cator, who said, "I am glad we'll have no keys as they are a nuisance, always being lost or forgotten."

There will be no larger floor space in the new location but the building is perhaps better lighted.

As to business on Dolores street, most of the houses are well established and their friends will be glad to make a few extra

steps to trade with them. Traffic congestion on Dolores, which is always a problem, will be greatly relieved and it is predicted that should congestion occur in Ocean Avenue, those who have always opposed a new post office building will soon be ready to withdraw their objections.
